

Mounting Bracket 29649

Installation Instructions

Bracket Dimensions: 13¼" w x 3/4" h x 10"d

- ➊ Remove existing mounting nuts from the Voltage Regulator.
- ➋ Remove both legs from the Voltage Regulator.
- ➌ Place the mounting bracket on the Voltage Regulator mounting studs in desired orientation.
Note: Mounting instruction label must be visible after bracket is mounted to unit.
- ➍ Replace mounting nuts from Step 1.
- ➎ Using a torque wrench, tighten the mounting nuts with 6 to 7 foot-pounds of torque.
- ➏ Due to the weight of the unit, unit must be mounted to a horizontal surface suited to support the weight.
Note: Vertical mounting is not recommended by the manufacturer.
- ➐ Inside mounting hardware to coach is not included.
