

Heavy Duty - High Power GFCI/ELCIs

Configured for both in-line and bulk head mount. Engineered to trip within 25 milliseconds. Protects:

- ▶ Motors
- ▶ Pumping Systems
- ▶ Pressure Washers
- ▶ Manufacturing Equipment
- ▶ Welders
- ▶ Hoists

Has 2' of cable on both line and load side. To prevent equipment startup after GFCI trips, manual reset required. Will reset on power restoration following disruption of primary power. 6.10.30™ key enables trip level selection and locking at a trip level with key removal.
